Innovation at the Intersection of
Science and Finance.

Becoming the European Leader in Systematic Investment Solutions

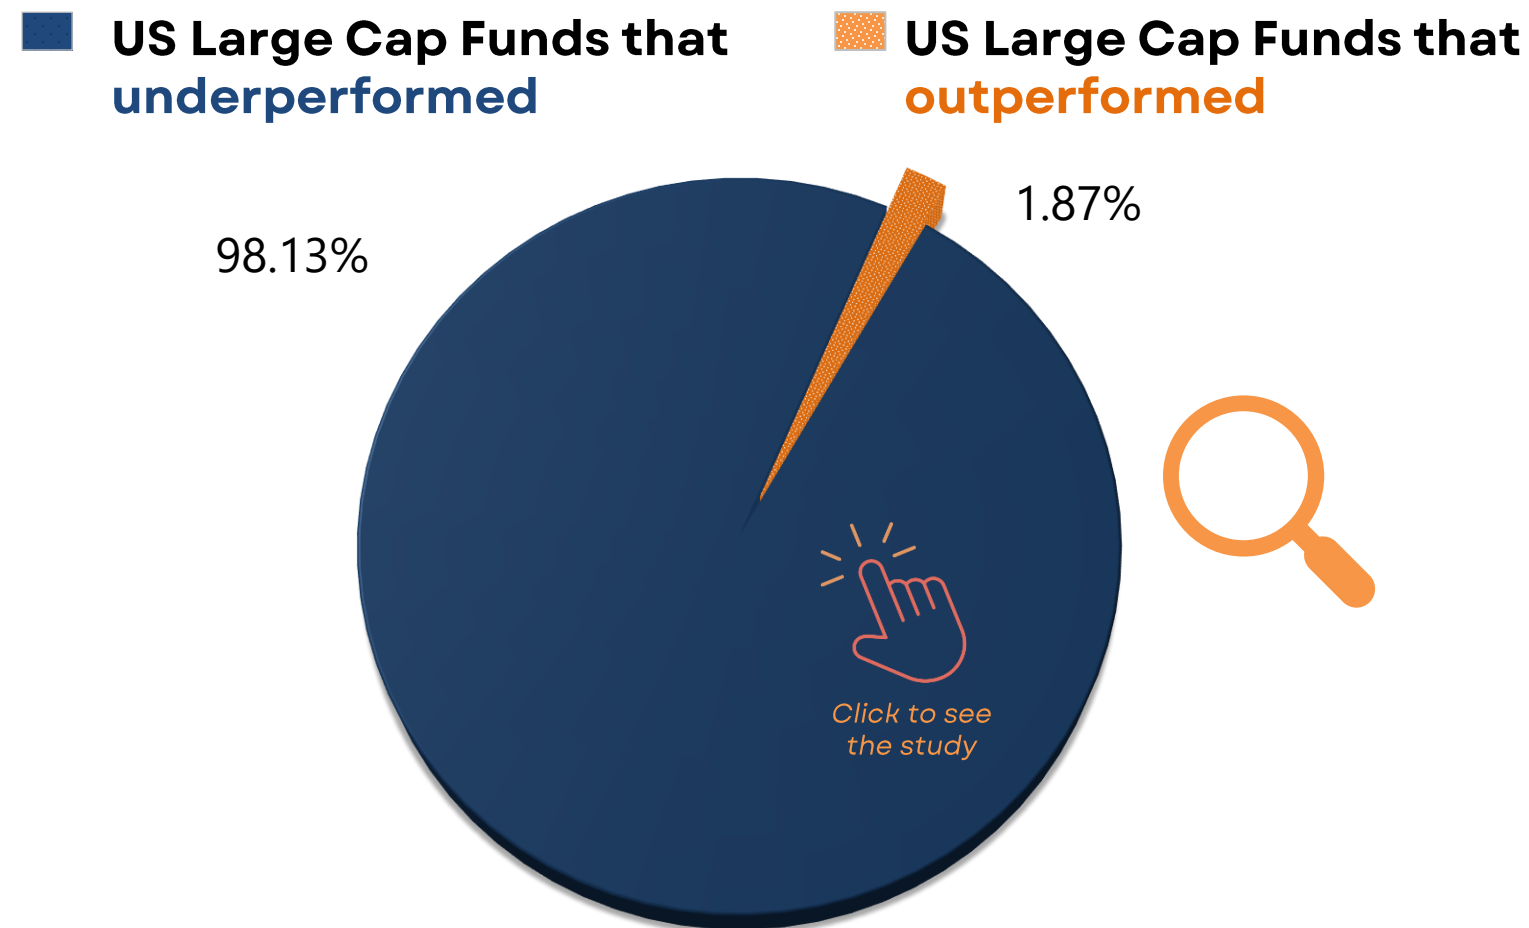

- 1 Unique Value Proposition**
 - » The invention of a new investment sub-class: **Systematic-Traded Funds (STFs)**
 - » Cost-efficient and automated solutions tailored to the needs of **Institutional Investors**
- 2 Market Growth**
 - » Active Fund Management amounted to 132tn USD in 2021, almost doubling from 78tn USD in 2015 – resulting in a **Multibillion-dollar market**
 - » **Go-To-Market Strategy:** Implementation via AIFs, SMAs, active ETFs or certificates
- 3 Proven Results**
 - » SPY3 with an annualized return of 30% since its inception in 2023
 - » **Extensive backtesting** underpins consistent risk-adjusted benefits over time
- 4 Competitive Edge**
 - » We outperform discretionary competitors through empirical insights¹ and our proprietary algorithmic execution infrastructure, that eliminates human errors and behavioral biases with instant **data-driven decision-making**

98% of Active Fund Managers Are Not Worth Their Money

S&P SPIVA Report 2024: Active Funds vs. Benchmark

Returns over a 15 Years Periods (1/1/2009 – 12/31/2024)

Institutional Investors spend **more than \$800bn every year** on active fund management that does not add value

STFs Meet the Zeitgeist of Institutional Investors

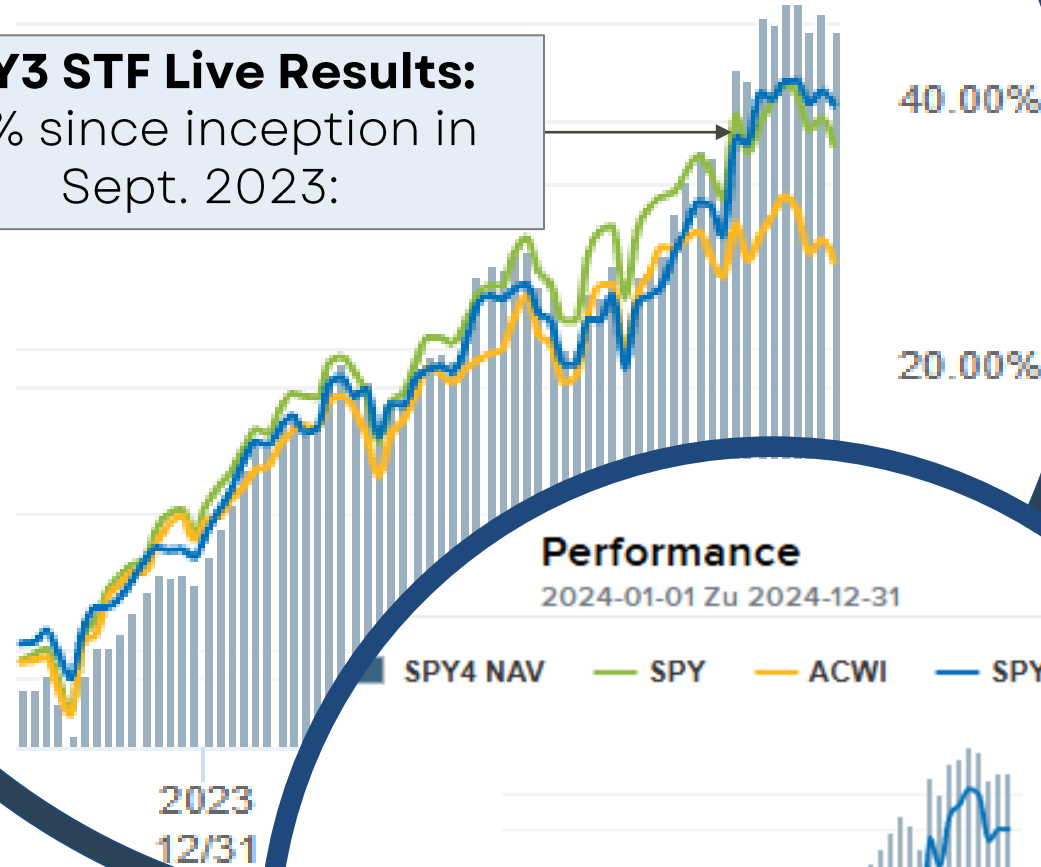

Systematic Traded Funds („STFs“) address the problem **persistent underperformance** and **lack of transparency** among active fund managers

Performance

STFs Have Significant Advantages over Traditional Public Markets Fund Managers

Transparent Decision-Making

Human errors and emotional biases are eliminated through data-driven decision-making.

Empirical Models

Our proprietary models use academic insights from the fields of factor investing, distribution analysis and behavioral finance.

Cost-efficient real-time execution

STFs use automated order execution, which minimizes operational costs while maximizing efficiency and speed.

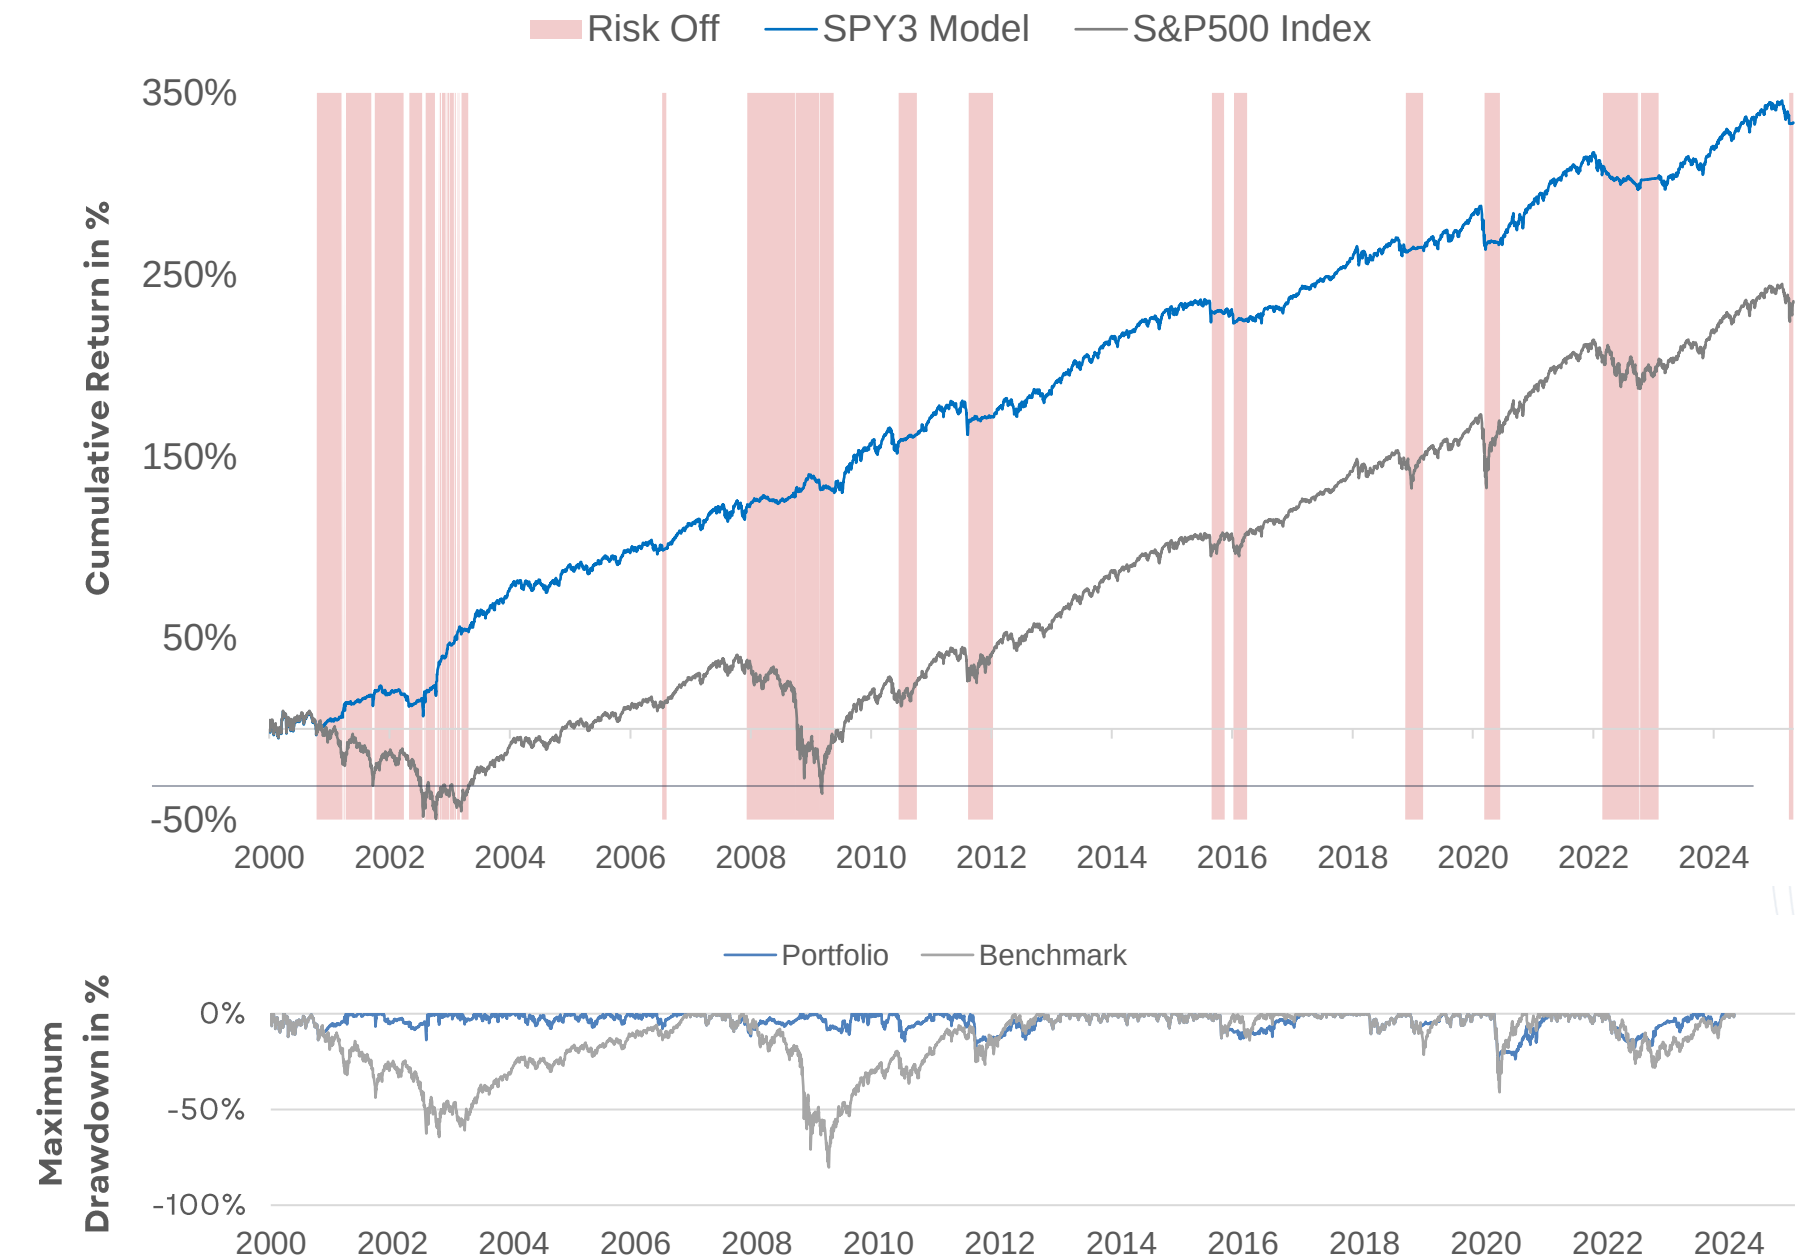

Cloud-native trading infrastructure

Accessible software that can scale globally, designed to leverage economies of scale, while optimizing operational efficiency.

SPY3 STF – Backtest: Superior Risk-Adjusted Returns Across All Market Cycles (13.4% p.a.)
